Claim 34 is allowed.

Claims 16 and 18 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 13-15, 17, and 19-21 are rejected under 35 U.S.C. 102(b) as being anticipated by Leo et al (US Patent No. 5560821) for the reasons set forth in rejecting the claims in the last Office action. The amendments to the claims are not seen to influence the conclusion of unpatentability previously set forth.

Leo et al teach a method for treating wastewater using an antibacterial composition containing ammonium sulfate, copper sulfate, and sulfuric acid mixed and diluted with water (see entire patent, especially column 5, lines 5-26).

Applicant's arguments filed February 10, 2006 have been fully considered but they are not persuasive.

The claims are not specific for food products. The claims are directed to foods, irrigated crops, and non food products (see claim 20). It is suggested that Applicant amend the claims to specifically claim food products. It is further noted that treated wastewater can be used to irrigate crops.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
